What is SEECAT?

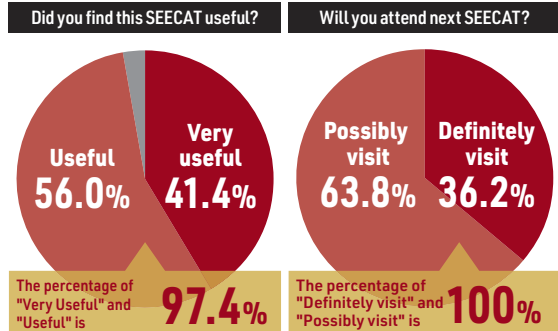

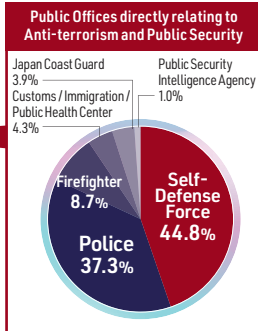

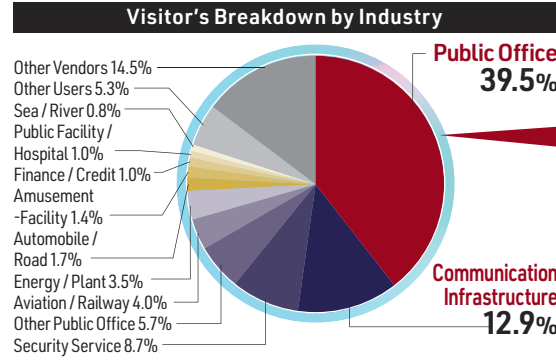

The Sole Exhibition Dedicated to Counter-Terrorism Measures in Japan! A Closed Show Limited to Qualified Visitors

The Special Equipment Exhibition and Conference on Anti-Terrorism (SEECAT) is the only business trade show in Japan to counteract terrorism that gathers people involved in anti-terrorism efforts. By making it a closed show with only the visitors who passed the admission screening, we create an environment for targeted and efficient matching among officials from the public safety sector including the police department, fire department, and Self Defense Forces, as well as those in the private sector who are involved in the crisis management of key energy networks, transportation infrastructure, big shopping malls, and similar facilities. With increased tensions between the U.S. and China, ongoing turmoil in the Middle East, the protracted conflict in Ukraine, and continued missile testing by North Korea, the global situation remains uneasy, driving renewed attention on civil protection and security policies in Japan as well. In addition, the upcoming Expo 2025 Osaka, Kansai, Japan has prompted an increased focus on counter-terrorism measures, including security at venues hosting large numbers of people and on public transport, as well as cyber protection of critical infrastructure and dignitary protection. More industry professionals look to SEECAT than ever before for the latest information and equipment related to anti-terrorism prevention and solutions.

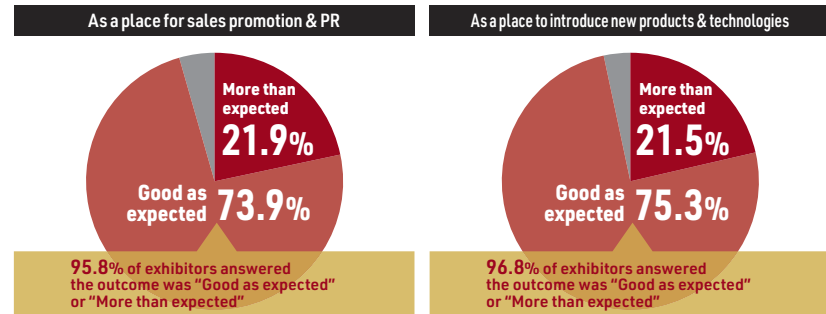

Report of SEECAT '23

Visitor Report

Exhibitor Report

Exhibitors' voices

- We were very satisfied with the quality of visitors and the number of visitors which increased again this year.
- We were able to meet with people who are likely to become new customers.
- The transition to business negotiations was smooth because the target audience and purpose of the event were clear.
- There were many users and experts who provided meaningful opinions.

Events & Promotions for Visitors

- Advanced Seminars**
- Within the exhibition hall, Advanced Seminars will be held by experts and leaders of anti-terrorism field. These seminars covering counter terrorism measures for each field, and stories of overseas attract Japanese professionals willing to collect such special information.
- VIP Invitation & Direct Mailing**
- Attracting visitors with pinpoint accuracy, targeting crisis management superintendents, chiefs of 47 prefectures and 20 cities designated by government ordinance, chief superintendents and division directors of prefectural police department, and fire chiefs.
 - Invitations to executives of ministries, important facilities and relating organizations.
- Mass Media**
- Focused advertisement on industry news, organization's magazines, read by officers at the relevant ministries, etc.
 - Press release sent to the press to announce widely to anti-terrorism professionals
